➤ Roger Dubuis | *BeHeart rings*

The jewellery offered by Roger Dubuis is an exuberant expression of harmony between curves, noble materials and metaphors. The BeHeart collection is a voluptuous display of flowing contours. The delicately rounded heart in white or pink gold transforms into a precious jewel, presented in three variations.

➤ PIAGET | *Limelight Paradise*

Luxurious and feminine, crystalline and festive, shimmering and fragrant, the jewellery from the Limelight Paradise collection composes a fascinating ode to the magic of dreams and exotic surroundings.

◀ Elke Berr | *Caramelle*

Swiss jewellery designer Elke Berr's collection of 'Caramelle' rings offer the ultimate cocktail accessory and are a contrast to her signature bracelets and pendants, also pictured, which are set with diamonds.

^ Pomellato | *Sirene*

Jewels designed to take your breath away, Sirene swathes the wrist and fingers in gold, without hesitation declaring the personality of the woman who has chosen them. Bracelets and rings are available in pink gold with diamonds.
